### **Orthodox Christian Stewardship as Sacred Offering**

**An Orthodox Stewardship Resource  
for Individuals, Parishes, and  
Christian Educational Institutions**

*By Fr. Robert Holet, DMin.*

This new work confronts key issues Christians face today when trying to grow in faith in service Christ as faithful stewards. Reflecting upon the inspired teachings in Holy Scriptures, Church history and the American religious experience, this book addresses key questions such as:

- What is different or unique about *Orthodox* Christian stewardship? Why should I care?
- Is Tithing 'Orthodox'?
- Do our Church and parish structures promote a holy way of stewardship for people or hinder it?
- How can we recover a stewardship mindset in a materialistic world?

The premise for this study is distinctly Orthodox - that *True* stewardship can only be founded in the *priestly offering of Christ* made 'in behalf of all' and performed faithfully by His followers who comprise His Church. As Christians, our call is to exercise a holy life of Christian sacrificial offering which is liturgically based - but permeates every dimension of human life.
